MONEY, STOCKS AND GRAIN

Important Movement in Shares at New York, Fluctuations Being Wide.

Illinois Central Tumbles and Goulds Take Flyer-At Indianapolis There Will Be Little Done in Cereals in Some Time.

THE BOND MARKET.

Railroad Issues Firm-Governments Quiet and States Steady.

At New York, yesterday, money on call was easy, ranging from 3 to 51/2 per cent., the last loan being made at 3, closing offered at 3.

Prime mercantile paper, 5@6 per cent. Sterling exchange was easier, with actual business in bankers' bills at \$4.85'4@4.851/2 for sixty days and \$4.87% @4.88 for demand.

The total sales of stocks were 470,000 shares, including the following: Atchison, 13,000; Chicago Gas. 8,600; Erie, 3,400; Louisville & Nashville, 3,200; Missouri Pacific, 7,800; Northern Pacific preferred, 16,600; New England, 9,900, Reading, 126,300; St. Paul, 18,600; Union Pacific, 4,100; Western Union, 9,265.

The movements in the stock market were more than usually important, the fluctuations in prices having been wide and frequent and the volume of business above the average. In the early trading the speculative temper was aecidedly bullish, owing to liberal purchases for foreign as well as local account and the reduction in sterling exchange, which renders gold exports less probable. The interest centered chiefly in the Gould and granger stocks, which advanced 1@1% per cent., with Western Union and Rock Island in the lead. Among the specialties. Illinois Central firsts jumped 234 to 10634 on reports that the well-known lake front suit had been decided in the company's favor. When these were found to be untrue early buyers turned sellers and the stock made a rapid descent to 1011/2.

Railroad bonds were generally firm.
Government bonds have been quiet.
State bonds were steady. Closing quota-

Trade Opens Active, with a Number

Changes in the Produce Markets. The week begins with active markets in all departments. The dry-goods men had a busy day yesterday. No advance in price was made, but a strong tone was noticeable on nearly all lines. Another advance in sugar is looked for this week, as freight rates advance Dec. 8 on that class of goods. Coffees are firm and steady. Opium advances 15c per ounce. Turkeys rule easy at 9c, ducks drop to 7c. Eggs rule easier and if mild weather coutinues, prices will break. Cranberries are scarce and higher. Cabbages advance to \$2 per barrel and higher prices for sweet potatoes are indicated. The supply of game is light and prices are higher. Little is doing in the seed market. Cloyer is weak

There was a fair attendance on 'Change. F. P. Rush, one of the largest grain-dealers, says he looks for but little change in the price of wheat for some time to come. The prices of corn, he thinks, will depend on the weather; if it be bad, and receipts light, prices will be well held; but should it good weather to ship corn, lower prices will certainly rule. Oats are in fair request and steady. Track bids yesterday ruled as follows

Wheat-No. 2 red, 684c; No. 3 red, 68c; No. 4 red, 55e; rejected, 50e; wagon wheat,

Corn-No. 1 white, 41c; No. 2 white, 41c; white mixed, 404c; No. 3 white, 40c for one or two color; No. 4 white, 85c; No. 2 yellow, 85c; No. 2 mixed, 894c; No. 3 mixed, 39c; Oats-No. 2 white, 86c; No. 8, 854c; No. 2 mixed, 854c; No. 3 mixed, 32c; rejected, 29

Hay-Choice timothy, \$12; No. 1, \$11.50; No. 2, \$9.50; prairie, No. 1, \$7.50; No. 2, \$5.50. Bran, \$11.50 per ton. POULTRY AND OTHER PRODUCE.

per, 25c. Solder, 15@16c. Clear Potash as Fruit Manure.

Horticultural Times. We have used within the last few years a good deal of potash in connection with the trees in our orchard, usually buying it by the cask for this purpose. We simply break the potash into small pieces, not larger than egg size, using about eight pounds to an average-sized tree, scattering it upon the ground about the tree in a circle extending half way from the trunk to the extremity of the branches. When this is done in the autumn or early spring the rains and snow dissolve the potash, which will be absorbed and spread through the soil, thus bringing the fertilizing properties directly to the small roots of the trees, without the slightest injury to the vegetation. The furture crops will show remarkable results, both in quantity and quality of fruit.

SPECULATIVE MARKETS UP

Cudahy Clique Thought to Be Operating in Wheat, Which Steadily Advanced.

Grain and Provisions, from the Leading Ceraal to Spare Ribs and Lard, Eccome Stronger and Closed at Higher Figures.

TRADING AT CHICAGO.

Pork Exceptionally Active, January One Time Being Up Nearly 771ge. CHICAGO, Dec. 5 .- Everything in the principal speculative markets was higher

to-day, provisions especially so, and wheat, considering the bearish news from Europe and the Northwest, surprisingly so. Hegarding the latter, it is said that Cudaby and Wright have started a deal in it under almost precisely similar conditions to the one they have in provisions. They are not afraid of present stocks, on the theory of a probability of their rapid disappearance and a conviction that there is nothing back in farmers' hands from which to replenish. The following are the additions to Saturday's closing prices: Wheat, 4so; corn, 4s & 4c; oats, 4c; pork and lard, 524c; ribs, 124c. At one time during the day January pork almost showed a gain of 77 2c. The advance in wheat was practically continuous. With easy cables and heavy deliveries in the Northwest, the market had a momentary spasm of weakness at the start, but it was soon found that good buying orders were on the market and that there was little for sale, and prices had a quick rally. Brokers supposed to be acting for Cudaby were found to be taking all the wheat that was offered. Shorts soon became uneasy and began to cover. Pardridge and Logan met the demand for a time, the former supposed to be selling for St. Louis account, but the readiness with which it was absorbed soon led to more can-tion on the part of sellers. There was also free offerings n Northwestern account, the feeling in that quarter evidently being bearish on the enormous receipts, which aggregated 1,881 cars to-day, against 1,212 cars a year ago and 914 cars two years ago. The anti-option-bill talk did not have much effect, nor did the increase in the visible supply, which was considerably larger than expected. The opening was from a shade under Saturday's closing to about the same figure, ruled strong and ad-

vanced about %c, closing steady within 'so of the top. Corn was a shade easier early, but finally mproved a trifle, in sympathy with the better feeling in wheat and the sharp advance in provisions. The trade, however, was exceedingly dull. The large decrease in the visible supply-1,301,000 bushels-imparted some strength to the market late in the day. Fluctuations were within a 4se range. The close was steady at 4se from the top.

In oats there was a good trade within a range of &c. The feature was the error of 2,000,000 bushels in the visible supply statement. As first posted it showed an increase of 1,439,000 bushels. The trade, on the whole, did not believe the figures correct, but there was fair selling for a time. The offerings were readily absorbed, and within a short time the correction made a decrease of 561,000 bushels. This caused %c gavance in May, which was taken advantage of by the longs to unload, and prices reacted 16 @ 4c, and the market closed 'sc better than

Hog products were excited on the smaller receipts of hogs, higher prices at the yards, and active buying by the clique and frantic covering by shorts. Packers seemed to be the leading buyers, but there was also heavy covering by speculative shorts. Later there was a strong effort made to break prices, which was partially successful, but another rally on the "long" side forced prices to the highest figures of the day. During the latter part of the session prices again settled back slightly, but exhibited considerable steadmess toward the close. January and May deliveries were traded in freely, the former attracting most attention.

Estimated receipts for to-morrow: Wheat, 315 cars; corn, 420 cars; oats, 400 cars; hogs, 33,000. The leading futures ranged as follows:

- THE -

Sunday and Weekly.

Since the Journal reduced its price from 25 to 15 cents a week, it has greatly extended its circulation reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate the result which was to be expected, namely, that what was first regarded as a luxury has become a necessity, and that the new readers not only remain, but their list is constantly increasing.

It is the purpose of the Journal

to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly-developing industries and business and social enterprises of the community call for additional consideration and space. With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "writeup" of every important event of matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of even greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of

time in transportation. The Journal is the paper for Indianians and particularly for Indiana Republicans. Although the campaign is ended, the coming session of Congress and subsequent change of administration involve political problems and proceedings likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having a possible bearing on Indiana in-

But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constant endeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

The Sunday Journal has a wellestablished literary character superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found n the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany, agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents. Circulars sent on application. Send for sample copies of Daily,

Sunday and Weekly issues,
